SUMMARY

Full stack web developer with a history of success optimizing diverse office environments and maintaining databases. I have experience with several programming languages and am confident in quickly mastering any new systems particular to a workplace. My communication skills are highly honed, as are my time management skills.

TECHNICAL SKILLS

Languages: Python, Javascript, CSS, HTML

Applications: Node.js, VSCode

PROJECTS

Covid Danger Data

<https://github.com/clydebaron2000/Covid-Danger-Data> | <https://clydebaron2000.github.io/Covid-Danger-Data/>

- An interactive map and information center for covid and fire data for California, designed so users can identify potential evacuation routes clear of fires and low in covid risk.
- Arranged the processing of large amounts of data from multiple sources into several ordered, accessible arrays by time period. Provided support on UI.
- JavaScript, HTML, CSS, Materialize, Ajax

Inn At The Edge of Copyright

<https://github.com/n-lambert/Inn-At-The-Edge-of-Copyright> | <https://innattheedge.herokuapp.com>

- A text-based Multi-User Dungeon (MUD) - an rpg with text input for user interaction
- Coded the bulk of the program response to user interaction, set up MySQL data structure, connected passport.js, express-sessions, and pubnub.
- JavaScript, HTML, CSS, Handlebars

EXPERIENCE

Stage Manager

San Diego Creative Arts Project

September 2015 -

Present Day

- Keep student data, keep stage notes and rehearsal notes, work with kids to keep focus and fun in a time sensitive learning environment.
- Run lights and lead lighting teams for community theater shows.
